

## **ABOUT Latimer LeVay Fyock**

Latimer LeVay Fyock LLC is committed to providing sophisticated and attentive legal services to its clients over a diverse spectrum of legal disciplines. Our aim is to deliver sound legal advice to our clients within the specific context of their respective business and personal objectives. We focus on our clients' practical business goals as the basis for our advice and representation.

Our firm is a group of accomplished attorneys with a broad range of areas of expertise. Founded in 2003, our firm set out to fill a niche in the metropolitan Chicago market, servicing middle-market companies and their principals with the high-quality legal work clients expect from a large law firm but in an efficient and cost-effective manner in the aggressive pursuit of our clients' desired goals.

Attention to detail and sensitivity to our clients' needs have enabled our firm and its attorneys to build long-term relationships. Our business model continues to drive our firm. Our attorneys combine many years of legal experience with cutting-edge legal knowledge to provide value-added legal services to a client base consisting of a variety of manufacturing and service businesses, sophisticated financial institutions and accomplished individuals and entrepreneurs.

Among the services that Latimer LeVay Fyock LLC provides are: corporate mergers and acquisitions; negotiation and drafting of complex contracts and agreements; choice of and creation of entity; sophisticated capital raises and other financial transactions; complex and creative real estate transactions; wealth, tax and estate planning; and a wide variety of business and commercial litigation.

The number of lawyers needed to maintain the quality and depth of the services our clients require has grown since our establishment in 2003, but the personal service and attention to our clients' needs have remained the focus. When appropriate, the firm's lawyers often collaborate on the transactional and litigation matters we handle, bringing their respective expertise and experience to create a synergy that maximizes the firm's strengths to the clients' benefit.
